## "WOW WEE"

Zowie! Neat magazine you got! Just got my first copy today. Sorry, but it was #3. The stupid Bimbos at the store didn't have #1 and 2, so enclosed is 70¢ for them. Anyhoo, I read from outa the chute! Man I really dig the way you told Herb Clawson square! If he likes (ugh) sports cars so much, why does he want a subscription? Boy what a dumb guy! I dig Dragging and Rods, and Big Mills! But . . . seriously, is there really and truly an organization called "NAAFH"? Would like to know! If so, I'm joining! To me Flatheads are best! Well keep up the good work, Dragula! Gee whiz . . . is that the only name you got? I would appreciate it, if you would print this,

Doug Sindel  
Gahanna, Ohio

## "WHO'S KIDDING"

Are you kidding us about those little people at the bottom of page 3 in your March issue? If not, I have counted 225, and if you finks are just kidding, I won't read the small print any more! A poor defenseless little kid!

Don Lipperim  
Kankakee, Illinois

We're not kidding . . . but you must be . . . 225???

## ARISE!

We don't understand why you are always running down sports cars. The sports car enthusiast enjoy reading Drag, but we do not like having to buy Drag at newsstand prices. However, if you persist in your anti-sports car campaign, Herb Clawson, and the rest of us will be forced to form NAASC (National Association of Sports Cars), shout the slogan "long live sports cars: down with dragsters!" and above all, read and promote another comic.

Bill Hirst  
Fayetteville, N. C.

You mean there is another book?

## "BUCKEYES ARE UPON YOU"

Enclosed in this letter you will find my two conceptions of what I think are cool rods to compete with some of the machines you guys run. I think you guys have one of the coolest mags on the market. Keep up the good work. So far I've been to the local newsstand to pick up all three issues and think they are great! I no sooner get finished with them than I have a line at my door waiting to read them. Everyone down here at O.U. thinks that your tool bits articles are great, and Temple McFlathead, he's wild.

Don Hanse  
Athens, Ohio

## "JUST LIKE MOTHER"

I enjoyed your Drag Cartoons "3, very much, I bought 2, one for school and one for home. I especially enjoy "The Clump", because it reminds me of my Mother in many ways. Don't you agree?

Tom Higgins  
Lake George, N. Y.

Can't say . . . I never met your Mother.

## "FROM OUT OF THE WOODS"

In response to the contest you featured in your March issue, I have consulted the foremost mathematicians of my burg and have the correct number of people on your page three. The answer is 185½. (The stud in the lower right corner got clipped.) Instead of the bottle of smog offered as first prize, I would appreciate the last two issues of DRAG, as after I read them, they are very useful as grease rags.

I admire the determination with which your people attack the overheads as a whole. For practical purposes, one must admit that flatheads are reliable transportation, and as horses have played a decided role in history, so have flatheads gone down in shining glory, to be remembered as faithful friends. However, they should be allowed to rest in peace, as they are positively replaced by the much more efficient OHV's. (Like unquote). Next, I would like to pay humble tribute to one cherished by all your readers, namely Arin Cee. All of us surely hope that someday Arin will return.

That's about it for now, so keep up the good work and the sick jokes.

The Vigilante:  
Chatham, Ont., Canada

P.S. If you guys are too cheap to award your last two issues as my hard won prize, then please send that jug of smog. (It can't be much worse than that Yankee beer.)

What can I say after I say I'm sorry, you lose Pal.

... let me suggest you subscribe to DRAG cartoons and get 12 issues for \$4.00\* . . . we'll mail it right to your garage.

'Kill' decals are something new for the automobile decal field. 'Kills' are used to mark drag victories. Similar in principle to the markings used by fighter pilots during WW II to announce their combat scores. The 16 designs show "Exhaust Eaters" in silhouette, black on white to permit use on cars of all colors. "Kills" are sold in sheets of five identical decals for one dollar.

Man, like I GOTTA have these babies! I've eatin' up so many irons I've lost count... so send me the ones I've checked, dig?

# DRAG CONTEST WINNERS

I guess I really started something with this contest bit . . . I've been literally swamped with some of the wierdest, toughest and wildest looking drag machines these tired ole eyes have seen in a coons age. I don't mind telling you cats it was most difficult picking the winners (183 of 'em). We took the ones that showed the most originality, thoughtfulness, detail, effort and gave consideration to the age of the contestant and came up with those we felt deserved to win. Space prohibited us from reproducing ALL the winning drawings . . . so if you're a winner and your drawing isn't here . . . smile man, you're STILL on top!

Oh yes, I **DO** believe the **FLATHEADS** will rise again and emancipation is at hand. I further believe in the suppression of the (ugh) Over-heads and will support the **NAAFH** movement to the end. Please consider my application and send me the weapons of recognition as soon as possible.

## MEMBERSHIP IS LIMITED

Do you own a FLATHEAD? If not, do you sympathize with our cause? Is your FH hot or stock? Do you race it? Plan to? How many (ugh) Over-heads have you 'eliminated'? Do the OHV's pick on you? Do you honestly believe in the resurrection of the flathead? Will you support the NAAFH?
